06 Civ. 1484 (LAK)

INTERNATIONAL GEMOLOGICAL  
LABORATORIES (IGC),

Defendant.

**ORDER**

LEWIS A. KAPLAN, *District Judge*.

The allegations of the complaint are sufficient to ground a claim of personal jurisdiction over the defendant. Defendant's submissions are inadequate conclusively to defeat jurisdiction. Accordingly, defendant's motion to dismiss is denied. It will remain plaintiff's burden to establish personal jurisdiction at trial or in response to a motion for summary judgment after the completion of jurisdictional discovery.

SO ORDERED.
